FAA Certified

Who We Are

AIRSIDE MRO IS AN FAA, EASA, AND UK CAA PART 145 CERTIFIED COMPONENT REPAIR STATION

Airside MRO delivers dependable component repair solutions with a focus on quality, speed, and customer satisfaction. Our skilled technicians combine industry expertise with advanced repair capabilities to provide efficient, high-quality service that helps minimize aircraft downtime.

As an FAA Part 145 Repair Station with EASA and UK CAA approvals, we support commercial and cargo operators around the world with maintenance, repair, and overhaul (MRO) services that meet internationally recognized regulatory standards.

Whether responding to scheduled maintenance or time-critical AOG requirements, Airside is committed to providing responsive communication, reliable turnaround times, and repair solutions customers can count on.

Our Services & Capabilities

Seamless coordination between repair, exchange, and logistics to reduce turnaround times.

FLIGHT CONTROLS

Flap actuator assemblies, actuators, drive power units, and more

WINGS

Mid flap / aft flap / fore flap / trailing edge flap assembly, ailerons, spoilers, leading edge slats, and more

ENGINE/POWERPLANT

Engine exhaust, thrust reverser assembly, fan cowls / core cowls, exhaust nozzle, spinner cone, engine mount / links, and more

CORE EXCHANGES

Reliable core exchange solutions to minimize aircraft downtime.

POOLING PROGRAMS

Flexible pooling programs that reduce inventory costs while maintaining component availability.

Our Services & Capabilities

We Support Your AOG Needs

PARTS AVAILABLE

Backed by KP Aviation's extensive inventory to help identify additional support opportunities when needed.

RAPID EVALUATION AND QUOTING

- Dedicated AOG coordination with clear communication from intake through shipment.
- Strategically located in Arizona for efficient logistics and fast response.
- Experienced technicians delivering reliable, high-quality repairs that meet the highest industry standards

KP Aviation has acquired Airside MRO. With advanced expertise in component and structural repair, Airside MRO enhances KP Aviation's ability to deliver reliable, efficient, and high-quality solutions through disciplined processes, technical excellence, and a shared commitment to keeping aircraft flying for operators, lessors, and asset owners worldwide.

KP AVIATION

Who is KP Aviation?

Founded in 2001, KP Aviation is a leading international aftermarket aerospace material and services provider, specializing in mid-life status aviation assets. KPA has created a team of technically proficient, active problem solvers dedicated to providing customers with the right part, at the right price, and with the right paperwork every time.

KPA is expanding with the goal of providing even more of the world's best airlines and aviation organizations with the most in demand assets "The KPA Way." KPA is private equity majority owned by Bain Capital, financially supported to eliminate any closing risk, supporting asset owners for ease of business.
